Department

Lee Hunter

MEET & GREET

Your City of Lake Ozark Employees

Like most City of Lake Ozark Water and Sewer Department employees, Lee Hunter likes to hunt and fish in his spare time. But when he's at work, the Rocky Mount resident is busy helping in the city's Water Department maintaining, repairing and installing waterlines where he has for two years. He's

also a spotter for his department's digging crews. Lee is originally from St. Charles where he graduated from Orchard Farm High School. He attended welding school after graduation and worked for a local total cleaning company and was a subcontractor for a roofing company.
